Making Global Connections

World Dance Movement Therapy Day

A lot of dialogue was had around who & which organisations associations and federations we would approach

In several of the initial meetings we had there was a sense that approaching those closest to us in profession seemed the best starting place.

We Created a 'letter' to send out to the connections that we had, and to explore new connections through Linked In, and other methods

Create a Global Affiliations facebook page

# What are the benefits of 'connecting' with EADMT?

Exchanges with other DMTs

Sharing the challenges around national & global recognition of DMT

A shared and deepening understanding of DMT across cultures

Being part of a larger DMT community and the lived experience

Building connections

Access to research and papers from around the Globe

support

& more
