

Treasurer Board Report 2021-2022

Main activities carried out by a treasurer this year included:

- bank account services, making transfers
- checking fee payments and issuing Debit Notes that confirms a fee payment for Associations who asks for such a document.
- contact with the accountant, taking care of the correctness of financial documents, collecting invoices in paper and online
- planning expenses and income
- preparing an actual budget and the estimated budget
- other activities connected with payments and financial issues

There will be a person settled in Germany who will support the Treasurer and the Board in making contact with a tax agency, tax clerk, notary ect.

This year has been marked by the war in Ukraine. On behalf of the board, I coordinated the creation of the EADMT Support Network, and Elli Kita did a lot of work on the communication level. Nineteen countries have joined the network and created local networks, ready to provide direct assistance to Ukrainian colleagues fleeing from war. Following the idea of the sharing expertise, providing support and sharing information, many DMTies all over the Europe have offered supervision or possibilities to join therapeutic groups. The Research Group has organized a Science Café dedicated to the DMT colleagues involved in war events, who work with refugees and those who support all related work.

The Board has come up with a proposal to pay 10 additional Euros towards the 2022-23 membership fee for the Ukraine Association. So far, nineteen countries have responded positively. The money will go into the Solidarity Fund and any extra funds will stay there for future.

As a Board Member I was also involved in discussions and actions regarding other activities, e.g. the conference. Fortunately, we have been able to meet and work face to face.

Kind Regards,
Izabela Guzek
