

Annual Board report 2023/2024

Communications – Indra Majore-Dūšele

Dear all,

This has been the first year in communication position for me on the EADMT Board. Thank you for your trust voting me into this position and also huge gratitude to Elli Kita who has helped me to make this first year with new responsibilities quite smooth. Elli's prepared handbook and personal meetings has provided a safe basis for further activity and development of communication position.

Thanks to all colleagues on the Board for welcoming me, I felt as part of the team from the first moments.

Main focus of my activities this year:

- Participate in activities of the Board / regular Board meetings
 - Erasmus Plus Project – interviews with applicants
 - Meetings with working groups
- Regular communication with different parties – delegates/ deputies, EADMT listserv community members, DMT practitioners and students looking for information and exchange projects etc., other professional associations in Europe and USA (dance, expressive arts therapies).
- Feed the webpage:
 - regular information update
 - in collaboration with membership committee we organized the membership application and renewal forms
 - in collaboration with conference group we opened Vilnius conference page
- Stay in touch with communication WG, planning communication activities regarding Vilnius conference. Thank you communication WG team for your stable, independent and efficient work!

The upcoming year will demand attention toward two big projects – continuation of Erasmus Plus Project and 5th EADMT conference in Vilnius.

With a hope for fruitful collaboration with you all,

Indra Majore-Dūšele
