

Annual Board report 2024/2025

Communications – Indra Majore-Dūšele

Dear all,

This has been the second year in communication position for me on the EADMT Board. Personally, I feel that this year I have more clarity regarding my responsibilities, although intensity of the work has been high. The main focus of this year has been the 5th EADMT conference, which I hope will be very exciting and fruitful gathering of our DMT community.

Main focus of my activities this year:

- Informative and communication activities regarding EADMT conference in Vilnius.
 - Collaboration with conference WG, Lithuanian DMT organizing team, communication WG
 - Information feed and update in conference page
 - Promotion activities through listserve and social media (in collaboration with communication WG)
 - Preparation of the sponsorship letter (in collaboration with the board)
- Participate in activities of the Board / regular Board meetings
 - Erasmus Plus Project – interviews with new applicants for communication/ administrative coordinator position
 - Meetings with working groups
 - All other Board responsibilities
- Regular communication with different parties – delegates/ deputies, EADMT listserve community members, DMT practitioners and students looking for information and exchange projects etc., other professional associations in Europe and USA (dance, expressive arts therapies).
- Feed the webpage:
 - regular information update – members profiles, working groups, activities, events etc.

I would like to say special thanks to Andrea Tziorta who has been communication WG leader and very reliable partner in all communication activities. Thank you, Andrea!

Also, I would like to bring in attention need for reinforcement in communication WG, I invite delegates and deputies to consider joining the communication WG.

The upcoming year I would like to enrich the website with photos and videos from our community various activities, stay in close contact with other working groups in promoting their activities and be fully involved in Board responsibilities.

With a hope for fruitful collaboration with you all,

Indra Majore-Dūšele
