

## Secretary report 2024-2025 / General Assembly Vilnius

Dear all,

This year has been filled with intense work, but I feel the Board has worked together collaboratively, effectively, and with great support for one another. We have been able to share, discuss, and make key decisions as a team. Our main focus has been the 5th EADMT Conference, which we hope will bring our community together.

My main activities have included:

- **General Board work** – regular Board meetings (8 on Zoom + 1 in Vienna + urgent communication via Messenger Chat), preparing agendas and minutes; meetings with working groups and committees.
- **Conference organization** – meetings with the Conference WG coordinator and the Lithuanian DMT Association; preparing a sponsorship letter (together with the Board).
- **GA organization** – finalizing the minutes from GA 2024, preparing the agenda with the Board, collaborating with the Lithuanian DMT Association (sharing information and discussions, managing registrations, and handling ongoing questions and communication).
- **Membership renewal** s– collecting renewal forms from national associations and updating the list of delegates and deputies (which is quite an effort).
- **Communication** – staying in contact with delegates, deputies, and national associations on current/running issues.
- **Collaboration with Membership Committee** – addressing questions and issues related to membership status renewals and the admission of new members.

EADMT is vital, exploring and growing - we are moving towards being more rooted, impactful and professional.

Thank you all for your enriching contributions, your warmth, and your support!

With warmest wishes,

Terje
